Product Features and Benefits

- Heavy-duty anodized roller track for long-lasting durability
- Large urethane door rollers for smooth and long-lasting operation
- Space-saving versatility with the elegant look of a large door opening
- Belt drive and brushless motor system ensures silent and reliable operation
- An unprecedented 25% larger door opening to withstand demanding traffic conditions
- Superior double-mohair thermal brush provides maximum isolation from outside elements
- Equipped with sensor systems that comply with ANSI 156.10 and promote reduced liability and increased safety
The NABCO GT1175 Telescopic Sliding Door puts your mind at ease when looking for an automatic door solution and limited space is a concern. This system combines the elegant look of a large, clear door opening with space-saving versatility. The durable, heavy-duty GT1175 Telescopic Sliding Door is engineered to withstand challenging environment and weather conditions while maintaining a smooth operation and quiet, whisper-like performance. NABCO’s microprocessor control provides reliable door operation, important usage counts, and diagnostic features for quick troubleshooting and reduced maintenance costs, making this the ideal automatic door entrance solution for unique applications.

**GT1175 Telescopic Automatic Sliding Doors**

**Header cover is pre-wired for sensor installation and uses extra-thick aluminum extrusions to minimize deflection.**

---

**PRODUCT INFORMATION**

- **Header dimensions:** 8 3/4"W (222.25) x 7 1/2”H (190.5)
- **Standard finish:** Clear and dark bronze anodized
- **Optional finishes:** Painted, clad, special anodized
- **Mounting:** Concealed
- **Threshold:** Surface-applied, recessed, none
- **Configurations:** Single, bi-part / full breakout, fixed sidelite
- **Transom:** Optional

**TECHNICAL INFORMATION**

- **Operator drive:** Electro-mechanical
- **Drive system:** Belt drive
- **Motor type:** 1/4 HP (peak) brushless
- **Primary circuit protection:** Breaker
- **Controller:** Microprocessor
- **Breakout:** System disabled when panels break out
- **Operating voltage:** 120 VAC – 5 AMP
- **Auxiliary power output:** 12 VDC
- **Maximum door panel weight:** 600 lbs.
- **Switch modes:** On/off, 1-way, 2-way, hold-open, night
- **Opening and closing speed:** Adjustable
- **Reduced opening function:** Standard
- **Obstacle detection:** Available in both directions
- **Hold-open time:** Adjustable (0-47 seconds)

**CODE COMPLIANCE / APPROVALS**

- **Code compliance:** ANSI A156.10
- **Approvals:** UL, ULC and CSFM

**NABCO Service and Specifications**

Along with the NABCO factory branches, NABCO has the largest independently owned network of automatic door distributors in North America. Their friendly, qualified installers and technicians always strive to exceed your expectations from install to after-sales service. NABCO's factory branches and independent distributors provide AAADM-certified technicians to ensure your doors meet all ANSI A156.10 standards.

Complete three-part specifications and CAD drawings are available on the NABCO website.
